

DE RUEDA CONSTRUCTION

Company Profile & Website Landing Page Information Sheet

Business location supplied: #7 Dona Adela Heights, Brgy. Mt. View, Mariveles, Bataan, Philippines

Primary phone supplied: +63 999 444 4854

Prepared from the company description, contact details, branding image and construction photographs supplied in this conversation. This is a content and layout planning document, not an independent verification of business registrations, credentials or project ownership.

1. Company Overview

Company name: De Rueda Construction

Business category: Local construction and building services firm (as described by the supplied profile).

Base: Mariveles, Bataan, Philippines.

Service positioning: Full-scale general construction, described as covering the project journey from initial plan conceptualization through structural execution and finishing.

Leadership information supplied: Emy Villar De Rueda is identified in the supplied description as principal engineer and mentor to local construction professionals. The professional title and current role should be confirmed with the company before publication.

Staff profile supplied: A locally trained team, with junior architects and civil engineers reportedly sourced primarily from regional institutions such as Bataan Peninsula State University. Confirm current team composition and institutional affiliations before publishing names or logos.

Suggested short company introduction

De Rueda Construction is a Mariveles, Bataan-based construction business presented as providing support from early project planning and conceptualization through construction execution and finishing. The company profile and project gallery can be used to introduce its work, explain its services and make it easier for prospective clients to request a consultation.

2. Brand & Visual Identity

The supplied banner uses a prominent green De Rueda symbol and wordmark, the descriptor “CONSTRUCTION SERVICES”, a bright green border, and a collage of construction and completed-building imagery. The visual direction is practical, local and construction-focused.

Suggested brand colors: primary green, white, charcoal/black and light neutral gray. Use green for key buttons, section accents and highlights; keep body text dark for readability.

Logo handling: use the supplied banner as a reference asset. For the live website, obtain a clean, high-resolution logo file with transparent background if available; do not crop the banner and treat it as a standalone logo.

3. Services & Website Content

The following service categories are suitable website headings based on the scope stated in the supplied description. Confirm the exact services, project types and licensing/permit scope with the company before presenting them as formal offerings.

Project planning & conceptualization — Initial discussions, project requirements, concept development and coordination of plans.

General construction — Construction delivery and coordination for agreed building projects.

Structural execution — On-site execution of the structural scope in accordance with approved plans and applicable requirements.

Finishing works — Completion and finishing stages to bring the project toward handover.

Design-and-build coordination — A possible umbrella message for clients seeking continuity from planning through construction; confirm that this is an actual contracted service.

Suggested client groups

Homeowners planning a new build or renovation; property owners and developers; and clients seeking a local construction team in Mariveles or nearby areas. These are suggested target audiences, not a verified list of current clients.

4. Contact & Online Channels

Business address	#7 Dona Adela Heights, Brgy. Mt. View, Mariveles, Bataan, Philippines
Phone	+63 999 444 4854
Facebook profile	facebook.com/emy.derueda
Facebook Page	De Rueda Construction
Email	No usable email address was supplied. The text contains “fb@” followed by the Facebook profile link; this is not a complete email address.

Publication note: verify the address, phone number, official Facebook Page URL, account ownership and a monitored business email before launching the site. Consider adding a Google Maps pin only after confirming the exact public-facing business location.

5. Recommended Website Landing Page Layout

Recommended page flow: clear identity → services → work gallery → company introduction → process → inquiry/contact. Keep the phone and inquiry action easy to find on mobile.

A. Header / navigation — Logo at left; navigation links: Home, About, Services, Projects, Contact; visible “Request a Consultation” button. Use a compact sticky header on scroll.

B. Hero section — Large project photograph or a short muted construction montage; headline “Building Your Vision, From Plan to Completion”; supporting line naming Mariveles, Bataan; primary CTA “Request a Consultation”; secondary CTA “View Our Projects”.

C. Trust strip — Show location, service scope and direct phone contact. Add years in business, licenses, professional registrations or completed-project counts only after confirmation.

D. Services — Use four or five simple cards for planning/conceptualization, general construction, structural execution, finishing and any confirmed specialist services.

E. Featured projects — Use a responsive photo gallery with project titles, location (if approved), scope and status. Do not identify private clients or exact property addresses without permission.

F. About the company — Introduce the business, its approach and the team. Publish leadership credentials, staff names and institutional affiliations only after written confirmation.

G. How the process works — 1) Initial inquiry; 2) project discussion and site assessment; 3) proposal and scope alignment; 4) planning and approvals; 5) construction; 6) finishing and handover. Adapt this to the company's real workflow.

H. Contact / inquiry form — Fields: name, phone/email, project location (municipality/barangay), project type, short description, preferred contact method and optional reference-photo upload. Include consent/privacy notice.

I. Footer — Business name, service area, verified address, phone, Facebook links, business email, privacy notice and copyright.

Suggested hero copy

Building Your Vision, From Plan to Completion

De Rueda Construction

Construction services based in Mariveles, Bataan. Tell us about your project and connect with the team to discuss the next steps.

6. Recommended Website Features

Mobile-first design — Fast, readable and easy to use on phones; prominent call and Facebook contact links.

Project gallery — Image grid with lightbox, captions and optional filters such as Residential, Commercial, Structural and Completed—use only categories that match actual projects.

Inquiry form — Send inquiries to a monitored company email or approved CRM; show a clear success/failure message and spam protection.

Click-to-call — Phone link using tel:+639994444854, after confirming the number.

Facebook integration — Link to the official Page and profile; optionally embed public posts if performance and privacy allow.

Search visibility — Page title and description focused on construction services in Mariveles, Bataan; descriptive image alt text; consistent business name/address/phone.

Privacy and security — Privacy notice, consent for inquiry data, HTTPS, spam controls, restricted admin accounts and regular backups.

Performance — Compress images, use modern image formats, lazy-load gallery images and avoid autoplaying large video on mobile.

Suggested SEO metadata

Page title: De Rueda Construction | Mariveles, Bataan
Meta description: Learn about De Rueda Construction in Mariveles, Bataan. Explore construction services, view project photos and contact the team about your building project.

Suggested primary search phrases

construction services Mariveles Bataan; general contractor Mariveles; De Rueda Construction; De Rueda Design and Construction; building construction Bataan.

7. Photo & Media Asset Inventory

Ten supplied JPEG images were checked for inclusion. Nine are square construction-site photographs and one is a wide company banner/logo collage. The photographs visibly show residential-style building exteriors at different stages, including scaffolding, exterior wall and roof work, openings/windows, and workers on site. The photos do not establish project names, dates, exact locations, ownership or completion status.

8. Supplied Brand Banner

Original supplied wide banner: De Rueda green wordmark, “CONSTRUCTION SERVICES” descriptor and collage of construction/building imagery. Use as a brand reference; request original artwork for crisp web and print use.

9. Construction Photo Gallery

The following photographs are reproduced from the supplied uploads. Captions describe only what is visibly apparent.

10. Verification Checklist Before Publishing

The following items should be confirmed by an authorized company representative. Do not publish assumptions as verified facts.

■ Confirm the registered/legal business name and the preferred public-facing brand name.

■ Confirm the registered company name and confirm that the public-facing brand is De Rueda Construction.
current names and how they should be displayed.

■ Confirm Emy Villar De Rueda's exact title, professional credentials and approved biography.

■ Confirm current team size, job titles and permission to mention Bataan Peninsula State University or other institutions.

■ Confirm the business address and whether it is appropriate to display publicly.

■ Confirm +63 999 444 4854 and the preferred contact hours.

■ Provide a working business email address; the supplied “fb@” text is incomplete.

■ Confirm ownership/permission to publish all construction photographs and any identifiable workers or properties.

■ Add project names, locations, descriptions and completion dates only where approved and accurate.

■ Confirm the exact services offered, project types, coverage area and any license/permit statements.

■ Approve the final logo artwork, colors, website copy, privacy notice and inquiry-form data handling.

11. Recommended Final Website Navigation

HOME | ABOUT | SERVICES | PROJECTS | CONTACT

Recommended primary action: “Request a Consultation”. Secondary action: “Call +63 999 444 4854”. Add Facebook links as supporting contact channels.

End of information sheet

CONTACT INFORMATION UPDATE

De Rueda Construction

The following CEO email address has now been supplied and should replace the incomplete email reference in the original contact information section.

Contact role	CEO
CEO email	emrueda07@gmail.com
Phone	+63 999 444 4854
Business address	#7 Dona Adela Heights, Brgy. Mt. View, Mariveles, Bataan, Philippines

Website implementation: Use this address as the CEO/business contact email for approved inquiries and administrative correspondence. Before enabling public form delivery, confirm who monitors the inbox and what inquiry data may be collected.

This addendum is part of the company information pack and supersedes the earlier note stating that no usable email address had been supplied.

HISTORICAL COMPANY MATERIAL

Archived Mission, Vision & Project Portfolio Extracted from the Supplied Company Video

The following material was extracted from the 1 minute 47 second video supplied in this conversation. It represents historical company content shown in that video and is not presented as a confirmed current statement.

Historical Mission

As we all know, land is a finite resource and a prime investment to own. Land, being transformed into great cities, nice homes, grand industrial parks, is one great feat to accomplish. Developing acres of this prime property entails a lot of planning and building.

Our company DE RUEDA BUILDERS & CONSTRUCTION SUPPLY has been able to establish numerous residential homes in the different parts of the Philippines. Through the use of the newest technology coupled with several years of experience in the construction business, we are assuring you of excellent workmanship from start to completion of the project.

Historical Vision

As the job includes a lot of detailing and price comparisons, we offer you a package price that can match the industry's standards. Tailored to your needs, rest assured that the quality and service that we render will be suited to your needs and will meet your expectations.

Historical About Us statement (video transcription)

At DE RUEDA BUILDERS & CONSTRUCTION, we are not merely transforming land into blocks and bricks. We believe in the beauty of creation and the power of design. And more importantly, we believe in the realization of your dreams.

Our company has been an established construction firm, creating homes and offices in different locations for many years. The expertise and experience we offer is based on the industry's standards, all for a reasonably packaged price. As your trusted partner, we are assuring you of an excellent workmanship from start to completion of the project.

We are a team of competent engineers who will be your partner in the development of your property. May it be building of new home or a reconstruction of an office building, we are dependable professionals who will render outstanding services from pre-construction to cost scheduling, our team will be ready to serve you.

We offer this piece to our Lord Almighty God!

Editorial note: OCR was used to read the small text shown in the video. Minor punctuation and obvious OCR character errors were normalized for readability; the original historical wording and claims should be reviewed by the company before reuse.

Historical Project Gallery – Video Stills

Representative presentation slides and construction-stage images extracted from the supplied video. Images are low-resolution video captures (640 × 360 source), enlarged for layout; they are historical references rather than newly photographed project originals.
